

Alistar Singh – BYS Overview.

Alistar is a professional engineer with over 25 years experience predominantly in the area of equipment supply to the Oil & Gas Industry. Having previously been a part owner of a significant engineering business Alistar has a key focus on operating fiscal outcomes and areas of governance. He is a strategic thinker, a collaborative leader, with a proven ability to build strong relationships in a complex stakeholder environment.

Alistar has previously served in the following BYS roles;

- Executive Committee member 2019-2020,
- Marina Committee 2017-2020
- Commodore 2017-2019,
- Vice Commodore 2015-2017,
- Rear Commodore 2013-2015,

Key achievements during this time include;

- Project management of the marina extension, on schedule and on budget,
- Finalisation of the Major Projects with the on schedule and on budget installation of the pedestrian traffic lights, as well as surfacing of the club driveway,
- Returning the club finances to consecutive operational surpluses during his time as Commodore,
- Negotiation of a new 21 year lease with the Foreshore Committee, on terms favourable to BYS,
- Designing and implementing a complete restructure of the club's General Committee to be replaced by an Executive Committee with 5 permanent sub-committees, to reflect a best practice structure for a "not for profit" organisation of the size of BYS,

Alistar is a very keen keelboat sailor, who competes regularly in club racing on his boat *Pending*, with a particular focus on the keelboat Aggregate and the Spry Series.
